- (b) PPPs are an essential part of the overall infrastructure reform policy of the City of Roxas. - (c) PPPs should be adopted to address a pressing and urgent or critical public need. PPP would also encourage the accelerated implementation of local projects.
- (d) PPPs can be adopted to avoid costs and public borrowing. By contracting with the private sector undertaking a new infrastructure project, scarce City capital budgets can be directed to other priority sectors such as social services, education, and health care.
- (e) PPPs allow for technology transfer, an improved efficiency and quality of service. These could be valuable contributions to the private sector in local governance.
- (f) PPPs should be feasible and affordable, demonstrating the need for the project, broad level project costs estimation, and indicative commercial viability. The assessment of affordability shall be the cornerstone for all PPP projects, both to the City of Roxas and the general public.
- (g) PPP Projects should be bankable. High participation costs, unreasonable risk transfer or lengthy and complex contract negotiations must be avoided. A cost recovery pricing policy attractive to the private sector must be in place, provided that the same will not be disadvantageous to government and public interest.
- (h) PPP Projects should provide value-for-money and good economic value, as far as practicable, including allocation of risks to the party best able to control, manage, mitigate or insure these risks, and maximization of the benefits of private sector efficiency, expertise, flexibility and innovation.
- (i) PPP Projects must provide economic and social benefits and should be evaluated on this basis rather than on purely financial considerations. The City of Roxas remains responsible for services provided to the public, without necessarily being responsible for corresponding investment.
- (j) PPP Projects must give consideration for empowerment of Filipino citizens as a strategy for economic growth and sustainability and must thus provide for the participation of local investors to the furthest extent practicable given the nature of the project. The City of Roxas shall also ensure the hiring and employment of local labor in the PPP Projects.
